

# Studio Lounger™ Plus

(Between-Arm Sleep System)

## Compact design for smaller living spaces.

### Comparison

### Space-Saving Design

Turns the sleeping position 90° from traditional sofa sleeper designs, allowing for a more compact finished piece and overall smaller footprint. Ideal for smaller living spaces such as studio apartments, RVs, hotels, and boats.

### 1 Dual Cross Wire Supports

Provide support while sleeping, while adding durability to the overall unit. Support wires also give the quality feel of stationary seating.

### 2 All-Square Tubular Construction

Heavy-duty square tubular construction to be used in contract and residential use.

### 3 Pro-Deck™

Two-ply ballistic decking material enhances durability and visual appeal.

### 4 One-Piece Tubular Leg

Provides enhanced stability and strength, allowing the unit to be operated from the center or side position.

Residential/Contract Use
